EDUCATION

University of Cincinnati, College of Engineering and Applied Science
Bachelor of Science in Computer Science

Cincinnati, OH
Graduating: May 2027

SKILLS

Software: Excel, Word, PowerPoint, AutoCAD, Jira, LabVIEW, MATLAB, Oracle APEX, Android Studio, VS Code
Programming Languages: Java, JavaScript, Python, C++, Kotlin, TypeScript

EXPERIENCE

Siemens Digital Industries Software

Milford, OH

Software Development Co-op - Fifth Rotation

May 2026 – Aug 2026

- Created secondary environment URL support for Cucumber test framework, so tests can switch between primary and secondary Active Workspace instances for navigation and login validation
- Enhanced MarsApp's Step Usage Report with a "Download Rerun" function, providing precise Cucumber text files for efficient, scenario-specific test runs

NASA Kennedy Space Center

Merritt Island, FL

Software Engineer Intern - Fourth Rotation

Aug 2025 – Dec 2025

- Automated Python code for Artemis mission support, creating scripts that log and format flight-critical system data to enhance the analysis of tests, simulations, and launches
- Integrated Jama requirements via REST API, producing structured logs for fault analysis to ensure mission safety

Chamberlain Group

Chicago, IL

Computer Science Co-op - Third Rotation

Jan – Apr 2025

- Partnered with UI/UX and Industrial Design Co-ops to develop a product that facilitated the integration of advanced technology into smart homes
- Built an Android app that streamlines notifications to enhance user engagement by leveraging automated customizations and API integrations

BMW Manufacturing Co., LLC

Greer, SC

Launch & Series Quality Steering Co-op - Second Rotation

May – Aug 2024

- Implemented and improved digital solutions, reduced production workers time to collect data hands-free from bluetooth calipers using AR headsets
- Increased the number of cars tested by 75% by implementing standardized work, improving and reducing road testing by 4 minutes

Quality Steering Co-op - First Rotation

Aug – Dec 2023

- Developed a reporting tool using Oracle APEX that improved audits, providing information in a timely manner that allowed for effective structured discussions to take place
- Supported colleagues and Quality Steering team by automating reports that improved work delivery

INVOLVEMENT

University of Cincinnati

Society of Hispanic Professional Engineers

Sep 2022 – Present

- Organize STEM-related activities for elementary and high school students

UC Robotics Team

Sep 2022 – Present

- Program LED lights with Arduino and designed robot pieces using AutoCAD

HONORS & AWARDS

Cincinnatus Scholarship, Votto Scholarship, Dean Giacometti Scholarship, LULAC Scholarship, Dean's List F24, SU25, HSF Scholar
